## PRODUCT CATALOG

# Hand Craft

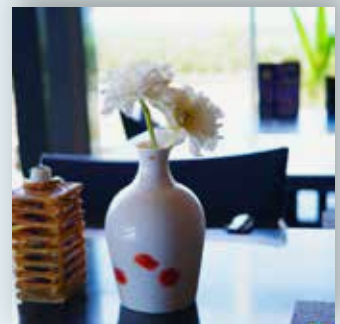

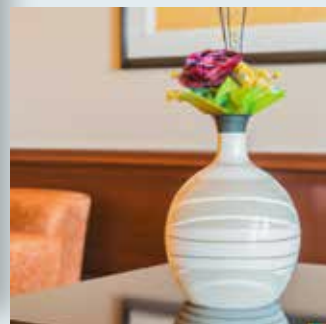

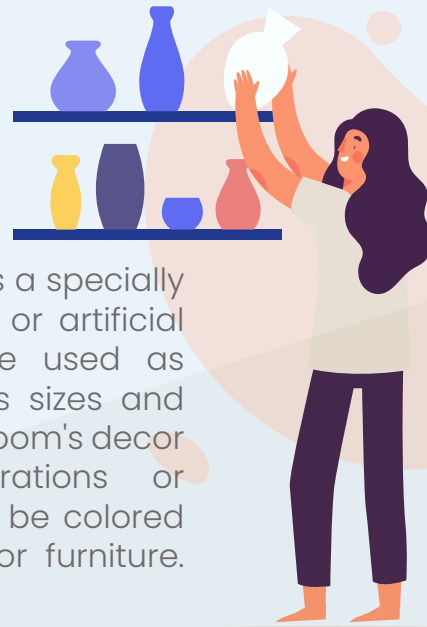

Welcome to our ceramic products catalog! We proudly present a collection of high-quality and unique ceramics, perfect for beautifying your home and adding an artistic touch. Each of our ceramic products is crafted by skilled hands and a sophisticated production process, resulting in strong, durable, and visually appealing material. From elegant dinner plates to beautiful flower vases, let's discover the right ceramic item to decorate your room in this product catalog.

# Flower Vase

---

A flower vase, also known as a vase or a pot, is a specially designed container for holding fresh flowers or artificial flower arrangements. Flower vases can be used as decorative elements in a room, with various sizes and shapes that can be customized to match the room's decor style. Some flower vases have decorations or ornaments on their surface, while others can be colored differently to match the color of the walls or furniture.

# Aesthetic Pot

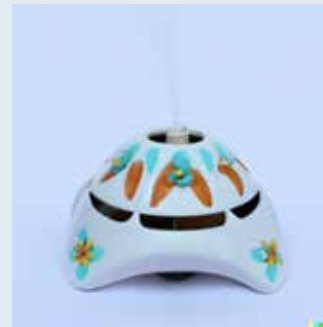

Aesthetic pot is a concept that combines aesthetics and function in a container or pot. This concept aims to create pots that not only function as plant containers, but also as decorative elements that beautify the room or garden. Aesthetic pots usually have attractive and unique designs, with various shapes, colors, and textures that are appealing.

# Aromatherapy burner

Is a tool used to diffuse aromatherapy scents into the air through heating essential oils or scented candles. This tool consists of a small container usually made of ceramic, wood, or stone, with a perforated top for placing the oil or candle. The operation of an aromatherapy burner is very simple. The user simply needs to drip a few drops of essential oil or place some scented candle pieces on the top of the container and light the fire at the bottom of the container.

# Aesthetic Glass

Ceramic glasses come in various designs, shapes, sizes, and colors that can be chosen according to individual needs and tastes. Some popular designs include ceramic glasses with flower motifs, geometric patterns, or retro style, which can give an interesting and unique impression. Ceramic glasses can also be used as souvenir products, gifts, or company merchandise because they can be printed with a specific logo or image, making them an effective promotional tool.
